AND THE LILY OF THE VALLEY,
WAS RIGHT!
If you want to get on a girl's sunny side,
Your face must surely look clean and bright.
To get this in the easiest way,
Go to William Seaton, without delay.
Who with razors, scissors, clippers keen,
His shop, chair, towel neat and clean.
Will change you in the least of time
From an ugly shrub, to a fellow fine;
Your girl will say: "Why Charley Dear,
Give me a kiss, nobody's near."

LEADING Cubans of good reputa-
tion are getting their full share of
official responsibility, and no fear of
an era of carpet-baggers is disap-
pearing.

SPAIN'S floating debt has increas-
ed but slightly in the last few months.
The relinquishment of the colonies
will be a great help to the Spanish
treasury.

OPINIONS differ in Havana as to
whether a certain room found in the
Governor's residence is a torture cell
or a small kitchen. Spanish official
facilities are understood to include
both.

SENATOR Daniel, of Virginia,
brings back from Cuba the estimate
that a third, and possibly a half,
of the inhabitants perished during the
insurrection. The war for humanity
came none too soon.

THE London Times warns the
French Government not to attempt
to enforce its pretensions at Shang-
hai. It is a dull day that brings no
admonition from England to its
neighbor across the channel.

QUITS about the invisibility of
good times and the scarcity of gold
have disappeared from Mr. Bryan's
speeches. But for anti-expansion he
would be struggling with an ex-
haustion of topics.

It is said of Minister Woodford
that when he reached Madrid he was
"absolutely direct and frank in his
dealings." The Spanish Telleysands
were so surprised that they soon re-
signed the game.

THE President's proclamation to
the Filipinos leaves no doubt of a
firm assertion of the sovereignty of
the United States. No question can
exist on this point, though our rule
will be as beneficent as possible.

A conference of silver leaders de-
velops the fact that no two holds
the same views on expansion. It
was hardly worth while for Stone, of
Missouri, to stay from the meeting
because he has an opinion of his own
on the subject.

THE assurance that there are votes
enough in the Senate to ratify the
treaty is gratifying, but is no sur-
prise. Opposition to the treaty is
little more than a form of political
eccentricity, and represents nothing
in public sentiment.

THE Filipinos are assured by the
president's proclamation that they
will be liberally governed, and given
as many privileges as the main-
tenance of law and order permits.
They will probably subside when they
understand the situation.

It may be said of Mr. Dingley that
he was at the front last year, though
not in the army. He served his fel-
low-countrymen with great zeal, and
their sympathy is with him during
his severe illness, which is due, in
some degree, to his arduous public
labors.

In view of the treaty, says the
President's proclamation to the Fili-
pinos, "the actual occupation and ad-
ministration of the group of the Phi-
lippine Islands become immediately
necessary." If Aguinaldo retains his
wits he can not fail to understand
that this means business.

"I am a democrat first, a gentleman
next and a Missourian all the time,"
exclaimed Mr. Whitecotton in a
speech in the Missouri House. The
arrangement is rather striking. The
from Monroe make the gentleman
secondary to a copper-riveted demo-
crat, but he might experience trouble
in reversing the order. His sequence,
from any point of view, seems to be
a horse on the gentleman.

The official organ of the German
Government says that "the sudden
and startling appearance of the Uni-
ted States in the political arena de-
mands that Germany should make
fresh exertions." There is a possi-
bility that the Kaiser is using the
United States as a menace in order
to carry out his plans for a great in-
crease in his navy. If the German
people are wise, however, they will
be deluded by the Kaiser's alarmist
talk. The United States is by far the
most peaceable among great nations.
Moreover, its interests do not con-
flict with those of Germany or any
other country at the present time.

Gov. Roosevelt took the Albany
without a break or a waver to the
lines.

Col. Bryan followed the flag to
Florida, but for some reason or
other he neglected to provide it with
a return ticket.

THERE is a popular feeling through-
out the country that the Spaniards
have left Cuba for good.

EVEN China has turned over a new
leaf and promised to mend her ways
during the coming year. There is
hope for France yet.

It really makes no particular differ-
ence whether trade follows the flag,
or the flag follows trade, so long as
both trade and the flag are contin-
ually growing bigger, broader and
better.

A force of 800 blue jackets will be
sent to Manila to take charge of the
three vessels added to the American
navy by the wonderful skill of Ad-
miral Dewey as a marksman and
augler.

In time of war it is important, of
course, to have the right kind of men
behind the guns, but it is just as
necessary to leave a skirmisher here
and there on home soil to keep the
cameras from becoming rusty.

AN open door policy is demanded
in the consideration of the peace
treaty in the Senate. However, if
the closing of the doors will have
the effect of limiting the debate, the
public will be delighted to change its
vote from open to shut.

THE American people are so enter-
prising and industrious that they al-
ways welcome anything in the nature
of a hard task. Hence they are wil-
ling to go 7000 miles from the bound-
ary line to tackle the problem of
holding an archipelago level.

TELEPHONE calls in Berlin average
only seven a day in the residence dis-
trict. An American family could
hardly get through the breakfast
hour on that number of rings.

PRESIDENT McKinley's military ex-
perience during the war of the rebel-
lion was limited to the rank of captain.
However, the Captains of 1865 would
make good Generals now.

NOTHING more remarkable has
lately descended the highway than
the case of two Pennsylvania men
who claim to have belonged to the
same choir for fifty years without a
discordant note.

COL. Vifvauin, of the 3d Nebraska
is a member of the Chinese Order of
Double Dragon. His predecessor,
Col. Bryan, still outranks him, as the
Avenger of '73 and Chief Has-it-in
for the Yellow Octopus.

THE patriotic citizen of Havana
were not permitted to make much
ado over the event of New Year's
day, but they will soon find ample
opportunity to release their pent-up
enthusiasm in the wild orgie inci-
dent to the annual occurrence of
groundhog day.

THE cooling-off process in Spain is
greatly retarded by the disposition
of Don Carlos to maintain an unna-
tural degree of warmth under the
collar. After so many months of
trouble it would be a good thing if
Carl would pretend to be cool and
permit the Madrid folks to enjoy
a few days' rest.

WITHIN the past ten years the ex-
port business at the Southern ports
has increased fully 75 per cent,
the greater of the increase being
within the last three years, and the
year of 1898 having the best record
of all. From all appearances the
business revival in the South has
come to stay.

PRESIDENT McKinley will be kept
very busy for the rest of the winter in
entertaining visitors from the Southern
states, most of them new acquaint-
ances made during the last three
months. It has been a long time
since the men of the South have en-
joyed such a friendly relation to the
occupants of the White House, and
fact is worth recording as another
evidence of the President's greatness.

Winter Work for Farmers.

The Agricultural Department of
the State University offers work this
winter for farmers, dairymen and
horticulturists that will do much to
improve the agriculture of Missouri,
if properly appreciated by the public.
This work begins January 3, 1899,
and continues twelve weeks. It is a
training school in the best up-to-date
methods of general farming, stock
growing, breeding and feeding, dairy-
ing, fruit growing and gardening.
The work is entirely practical and
the results of previous seasons of
this school have clearly shown that
any farmer of reasonable intelligence
will be able to use the information
gained there profitably throughout
the remainder of his life. Even ex-
perience and successful farmers and
horticulturists have found many
things of great value to them in
these courses. The tuition is free
and the course is open to all without
entrance examinations. The young
men and the young women of this
country who expect farm should not
neglect this opportunity of posting
themselves on the best up-to-date
methods of farming. Send to the
University for an illustrated catalogue
of these courses, and begin your pre-
paration to attend this winter.

The Weather Calendar.

The Taney County Republican has
received the Cardui Weather Chart
and Calendar for 1899 from the Chat-
tanooqua Medicine Co., manufacturers
of McElree's Wine of Cardui and
Theodor's Black-Draught. This is
one of the best Calendars published.
It consists of twelve sheets of paper
18x20 inches in size, all fastened to-
gether with a brass loop hanger.
Each sheet contains the calendar for
one month in large figures that can
be read across any room. Under the
figures patent weather signals indi-
cating Prof. DeVoe's Weather Fore-
casts for every day in the year ap-
pear. The moon's changes and legal
holidays are also shown. The calen-
dar is valuable in any home. We
understand a few copies of it can be
secured by sending 10 one-cent pos-
tage stamps to the Chattanooga Med-
icine Co., Chattanooga, Tenn.

SURVEYOR'S FEES.

An act of the Legislature, approved March 31,
1891, provides that County Surveyors be allowed
\$1.50 cents for each survey of one and a quarter
miles or less; 40 cents for each plat; 50 cents
for copy of plat and certificate; 50 cents for re-
cording plat and certificate. These items foot
up \$2.50, the lowest charge made for any survey,
and in addition to this amount there is a charge
of 50 cents for each additional mile and \$1.00 for
each corner established. The Statute provides
that County Surveyors perpetuate their sur-
veys by establishing well defined corners, and
it is not left merely to the opinion of the party
having the survey made as to the number of
corners necessary to perpetuate the work—that
must be determined by the surveyor himself,
charge of 5 cents for every mile of travel, each
way, is allowed.

Random Surveys are mere guess work, neither
accurate nor safe, and dear at any price. All
communications relative to surveys, etc.,
promptly answered.
